## OUR AGRICULTURAL SOCIETY.

We have in the County of Dennis all the essential points which go to build up agricultural prosperity, viz, good land, a splendid water supply, a fair amount of timber, and excellent market facilities. We have only to point to the rising towns of Virden, Oak Lake, Elkhorn and Griswold, all situated on the main line of railway, and note the rapid progress they have made in the last two years, to be satisfied that we have probably the most pushing and energetic population that any part of Manitoba or the Northwest has.

Although as a County grain growing will assuredly be one of its most important agricultural industries—simply because it possesses within it, precisely a large quantity of the very highest class of wheat growing land to be met with in the world, and the cultivation of that crop has hitherto, and we trust will be, attended with probably a greater measure of success than in any other part of the province—yet stock raising, and always will be, a subject which will command great attention. The valleys of the Assiniboine and Winnipeg, the thousands of acres of rich hay and pasture lands surrounding the beautiful stretch of water called Oak Lake, the northwest part of the County, furnish the best grazing lands we have. Large herds of good cattle are already to be found in these localities; sheep are being successfully raised by some farmers, a few of whom have considerable flocks; horse raising, which is now carried on by a few, will soon be taken up by almost every farmer; and this, with the careful breeding of pigs and poultry, already extensively carried on, will soon bring us to the level of districts which were well settled when this county was still unbroken prairie.

Knowing that Agricultural Societies, properly conducted, have done for districts in Ontario and the old countries we would here draw the attention of every class in the community to the County of Dennis Agricultural Society's meeting, which, as previously announced, is to be held at Virden next Monday. This society has been characteristic of the people in its rapid progress, and so far it has been, financially, a success. On the date of the first show, the weather proving unfavorable, very few attended; on the occasion of the second exhibition, however, held on Oct. 6th and still fresh in the minds of all, the Society had the pleasure of knowing that as far as competition in the different classes and attendance of the public were concerned, they had made a decided success. Over two hundred dollars was awarded in prizes, and the citizens of Virden and Elkhorn, as well as friends from other parts, contributed largely to the success of the show by offering special prizes.

We feel, however, that it is only consistent with the progress being made in other quarters that a very largely increased share of assistance be given to the society in the coming year. Farmers, merchants and all other residents in the County are equally interested in a society of this nature, and all ought to attend a meeting of such importance. In addition to the business already announced to come before the meeting there are other matters of interest—connected with the cultivation of grain, the raising of stock, and the advisability of importing draught or general purpose stallions, by the society or otherwise, for the improvement of stock—which should be brought under discussion.

So far this society has had to fight its way without assistance from the Provincial Legislature, which, however, it is confidently expected it will receive next year. This, with any judicious grant from each of our Municipal Councils and the increased interest of individuals, will make the success of next year's work a foregone conclusion.

## COMMUNICATIONS.

We do not hold ourselves responsible for the opinions expressed by our correspondents, but are willing to give space in our paper at any time for discussion of public questions.

We do not publish any letter unless accompanied with the name and address of the sender, and necessarily intended for publication.

### NOTES.

By-Laws.—As I have had several letters inquiring about what would be done with lands in arrears for taxes, I think it would be well to make public the law as it now stands, and so save further inquiries from the interested. The District Board at Brandon will

sell, about the 1st of March next, all lands, occupied or unoccupied, patented or unpatented, that are in arrears for taxes for 1884, unless sooner paid, with interest, and if advertised the cost of advertising. In the case of lands where the title is in the Crown, the deed therefor shall convey only such interest as the Crown may have given or parted with. The North-West Land Company's lands will be sold at the same time.

A. G. McDougall, Reeve.

## ACROSS THE RIVER.

To the Editor of the Virden Advance.

Sir—Your talented correspondent seems to have outdone himself in a feeble attempt to reply to an item which appeared in your columns about two months ago concerning some one being taken from a grainary without the owner's leave. He seems to think that your correspondent from "Across the River" has been misinformed in the matter. I beg to state that your correspondent was well acquainted with the facts prior to the penning of said item, having witnessed the taking of the grain and learning the more important facts the following morning from the owner himself. Mr. Innocent says there may be some excuse for me seeing that I have friends boarding with the general, or long haired waitress, now putting in time at Stony Mountain. Mr. I. has the advantage of me there, but if I have friends there or elsewhere it is concerning to think it need for breaking the tenth commandment. I would also say that the party alluded to has more friends in this country than ever Mr. I. has in his.

—At the Brandon Presbytery, held at Fortage la Prairie last week, the committee appointed to examine the clergy in the church here, reported that irregularities did exist in the mode of electing and ordaining elders, but that they were not of sufficient importance to invalidate the proceedings. Their report was adopted and became the finding of the Presbytery.

—The new boarding house, on the north side of the track, which has been named "The Grange," was opened last Thursday evening with a free dinner and supper. The proprietors, Messrs. Palmer and Mitchell, had prepared for the occasion but a number of intoxicated persons made the proceedings anything but what they should be. Whether it was due to being dissatisfied upon the house it is hard to say, but if so the action was contemptible. We hope, for the credit of the town, such occurrences will in the future be for and far between.
